IntelliCheck™ - HACCP Inspection System

IntelliCheck™ HACCP Inspection System

- ▶ One-Touch Temperature Acquisition
- ▶ Fully HACCP Compliant
- ▶ Bluetooth Wireless Probe
- ▶ Paperless Inspections
- ▶ Rugged Waterproof Construction

IntelliCheck™ Makes it Easy

IntelliCheck™ is a complete HACCP inspection system designed to eliminate cumbersome form-based solutions. No more filling out checklists by hand and stuffing them into a filing cabinet. With IntelliCheck™, you simply press a button and let the system do the rest. IntelliCheck™ includes an integrated corrective action system that allows your operators to fix problems as soon as they are detected.

Streamline Your Inspections

With IntelliCheck™, taking temperatures is as simple as pressing a button. Send your checklists to the PDA with a click of the mouse, and an intuitive on screen display guides your operators through the inspection process. Checks are automatically uploaded to a secure central location, and results can be easily viewed from any computer on your network.

Freedom Of Movement

You won't have to worry about dangling wires into food or burning them on the stove. The IntelliProbe™ offers the only completely wireless temperature logging solution on the market, and Bluetooth technology means you can connect the IntelliProbe™ to any Bluetooth enabled PDA.
